Experience

Sabbatical Art, Meditation, and Travel
Nov 2022 – Nov 2023

FOSSA Product Designer
Aug 2019 – Nov 2022
- Design for widely-used enterprise SaaS product: conducted user research, created personas, workflow diagrams, interactive prototypes, wireframes, and visual design
- Worked cross-functionally to ship a variety of mission critical features: authentication, issues v2, open source package index, project filters, risk intelligence, security reports, and more
- Helped create and maintain design system, improving internal productivity and consistency across product

Dawn Labs (acquired by FOSSA) Design Lead and Partner
Jan 2018 – Aug 2019
- Co-founded a product agency with two friends. Worked with clients such as FOSSA, Plot.ly, and Vercel
- Wore many hats: business management, frontend engineering, hiring, marketing, product design, etc
- Designed and built Carbon (50k+ MAU, 30k+ GitHub stars)

Amazon Software Engineering Intern
Sep 2017 – Dec 2017
Designed and implemented 360° photo viewer for Amazon Auto

Flipboard Software Engineering Intern
May 2017 – Aug 2017
Design and full-stack software development on internal services

Education

University of Wisconsin – Madison
Sep 2014 – May 2018
Bachelor of Science, Computer Science

Skills

Product Strategy, User Research, Wireframing, Prototyping
HTML, CSS, JavaScript, React, Figma, Adobe CC
